CV FULL-STACK DEVELOPER

PROFILE

Full-Stack Developer and Hyper Island student with hands-on experience building web applications with React, Next.js, JavaScript, TypeScript and Node.js. Comfortable working across frontend and backend, connecting APIs and databases, fixing bugs, testing features and delivering real user-facing functionality. Looking for an internship or junior developer role in Stockholm.

EXPERIENCE

Full-Stack Developer Intern <i>React, Next.js, JavaScript, TypeScript, Node.js, REST APIs, Git</i> - Worked on both frontend and backend features for the Gaddr Search & Me product. - Built and improved user-facing features and connected them to APIs and backend data. - Fixed bugs, tested features and supported production-ready improvements.	Gaddr	Dec 2025 - May 2026
Web Developer - Remote <i>JavaScript, PHP, MySQL, Git</i> - Worked remotely on frontend and backend features for client web projects. - Built and maintained application functionality using JavaScript, PHP and MySQL. - Fixed bugs and supported existing client systems and releases.	Kuraztech	Jan 2024 - Apr 2025
Freelance Front-End Developer <i>React, JavaScript, Figma</i> - Built responsive React websites and user interfaces for clients. - Turned client requirements and designs into working frontend features. - Improved usability, mobile experience and overall UI quality.	Freelance	2021 - 2023

SELECTED GITHUB PROJECTS

Frontend Portfolio Live portfolio showcasing selected frontend and full-stack work.	Live website GitHub
Trip Finder React project for exploring Stockholm events, saving favorites and building a personal weekend guide.	GitHub
Voice for Her Full-stack platform focused on awareness and support, with separate frontend and backend repositories.	Frontend Backend
Kuraztech Internship Project Code repository connected to web development work completed during the Kuraztech internship.	GitHub
